## EXPERIENCE

### Web Developer

Self-employed, Canada

Aug 2020 - Current

- Develop dynamic and interactive websites with React.js and Node.js.
- Maintain websites and applications, including content updates, account administration, debugging, feature enhancements, testing, documentation, and regular upgrades to ensure web security and system usability.
- Deliver responsive, cross-browser compatible and accessibility compliant websites.
- Develop Webflow websites from designs in Figma.

### Heavy-Duty Technician

Warner Industries, Canada

Feb 2016 - Sep 2022

- Garnered a solid reputation as a highly-skilled and quality-driven technician.
- Oversaw the performance of other mechanics, and earned trust to assume increased responsibilities.
- Tasked with maintaining a constant dedication to quality and accuracy, and ascertained tasks were completed correctly.

### Web developer

Pro-media, Warsaw, Poland

Feb 2014 - Feb 2016

- Collaborated with team as part of the Agile process.
- Built custom components for UX-Library.
- Produced multiple visual elements of web applications by translating UI/UX mock-ups into code using React, HTML, and CSS.
- Collaborated with a cross-functional team of designers, product managers, and developers on all phases of the product development lifecycle.

- ❑ Resolved customers' problems, and provided immediate support and fast resolution, resulting in customer satisfaction.
- ❑ Identified, prioritized, and wrote accessibility defect tickets. Tested using a combination of devices, screen reader (VoiceOver), and accessibility testing tools.

## **LPG Systems Engineer**

Landirengo, Warsaw, Poland

Sep 2012 - Feb 2014

- ❑ Exhibited advanced talents for quickly and accurately diagnosing mechanical and electrical failures and determining corrective actions.
- ❑ Tested and improved component performance.
- ❑ Created technical documentation.
- ❑ Performed training.
